Marshall Transportation Service Center  
15300 West Michigan Ave.  
Marshall, MI 49068

Prepared by: MDOT Graphic Design & Mapping Unit  
Office of Communications/brochures/I-94 Repaving Albion (1/11 rld)  
285 copies printed @ \$0.08 each for a total cost of \$22.80

## What Is Being Done?

The Michigan Department of Transportation (MDOT) will be repaving westbound I-94 from 21 1/2 Mile Road to 29 Mile Road near Albion in Calhoun County. MDOT also will be repairing concrete pavement under the 22 1/2 Mile Road and M-199 (26 Mile Road) bridges to maintain height clearance, repaving and improving ramps, and upgrading guardrails. Median cable guardrail also will be installed on I-94 from 21 1/2 Mile Road to 29 Mile Road.

## When Will This Be Done?

Westbound I-94 resurfacing and bridge work will take place from July through September, while median cable guardrail installation will occur from July through November.

## How Will Traffic Be Affected?

From July through September, one lane of traffic will be open on westbound I-94 from 6 a.m. Monday to 2 p.m. Friday. Both lanes will be open on weekends.

From September to November, all lane closures will occur at night while shoulder closures will take place during the day.

## Long-term Benefits

This work will extend the pavement life, providing safer and smoother ride quality to the motoring public.
